EXECUTIVE SUMMARY

UCF Information Technology student and Marine veteran focused on entry-level IT operations and support. Building practical foundations through coursework and projects in Windows 10/11 and Microsoft 365 administration, Active Directory/Entra ID account tasks, and core networking (VPN/Wi-Fi, DNS/DHCP), plus imaging and peripherals in lab environments. Known for clear, step-by-step documentation, disciplined procedures, and basic PowerShell/log review to triage and escalate issues appropriately. Seeking Help Desk, Desktop Support, or Junior Sysadmin roles to apply structured problem-solving while growing on enterprise tools.

EDUCATION

University of Central Florida, Orlando, FL
Bachelor of Science in Information Technology
Minor in Secure Computing and Networking
Awards: Dean's List, Fall 2024, Spring 2025, Fall 2025; President's Honor Roll, Spring 2026

August 2023 – Spring 2026
UCF GPA: 3.63/4.00

PROFESSIONAL EXPERIENCE

United States Marine Corps Reserve – Mobile, AL

October 2020 – April 2025

Role: (Primary) All-source Intelligence Analyst, (Secondary) Ground Sensor Operator

- Collected, reviewed, and summarized field information; produced concise briefings and kept clear records to facilitate decisions.
- Planned and led information-gathering tasks; aligned efforts with leadership priorities and improved handoffs with clear instructions.
- Led the operations center (command and control hub), tracking multiple missions at once and maintaining 100% accountability for 40 Marines and high-value equipment; synchronized updates and enforced accurate reporting.
- Prepared and delivered briefings to senior leaders, improving situational awareness and speeding up decision-making.
- Deployed, calibrated, and maintained tactical ground sensor systems; verified power and network links, ran diagnostics, and wrote troubleshooting guides that reduced time to fix issues.

TECHNICAL PROJECTS

Medium Business Network Design – Cisco Packet Tracer

Fall 2025

- Designed a segmented enterprise-style network with 9 VLANs, Layer-3 switching, and inter-VLAN routing using SVIs.
- Implemented ACL-based traffic policies to restrict cross-department access while allowing required business communication.
- Configured DHCP relay, DNS, and internal web services within a dedicated server VLAN.
- Verified network functionality using diagnostic commands such as show vlan, show interfaces trunk, show ip route, and show access-lists.

Home Server / NAS Lab – Ubuntu Server, Samba, Webmin

Spring 2025

- Repurposed an older laptop into a home server running Ubuntu Server to practice Linux administration, network storage, and systems troubleshooting.
- Configured Samba file sharing with user-based access controls to provide LAN-accessible network storage.
- Managed storage mounts, directory permissions, and share access for a dedicated NAS drive.
- Applied basic firewall rules to limit file-sharing access to the local network.
- Used Linux commands, Webmin, and system logs to troubleshoot service, permission, and connectivity issues.

TECHNICAL SKILLS

- Platforms & Admin: Active Directory / Entra ID (accounts, groups, resets), Microsoft 365 (Exchange, Teams, SharePoint), basic Windows Server admin
- Operating Systems: Windows 10/11, macOS (support), Linux (basic)
- Networking: TCP/IP, DNS, DHCP, VLANs, VPN, NAT, Wi-Fi troubleshooting, LAN/WAN fundamentals
- Security Frameworks: SIEM/IDS/IPS concepts, DLP hygiene, MFA & least-privilege practices, basic cloud security.
- Endpoint & Device Mgmt: Intune/SCCM imaging & policy, BitLocker/recovery keys, printers/peripherals, asset inventory
- Cybersecurity: Threat Analysis, Risk Mitigation, Vulnerability Management
- Tools & Technologies: Wireshark, Cisco Packet Tracer, Event Viewer, Quick Assist/AnyDesk, Excel (PivotTables, XLOOKUP), Git (basic)

ADDITIONAL SKILLS

- Strong analytical and troubleshooting skills; clear, step-by-step documentation
- Ability to adapt quickly to new tools and enterprise environments
- Excellent verbal and written communication with end users and teams
- Team-oriented work ethic; reliable under deadlines; comfortable with tickets/SLAs

ADDITIONAL INFORMATION

Certifications: TestOut IT Fundamentals, Security + (In progress), Network+ (In progress).

Security Clearance: Secret clearance held during military service
